

Marine Corps Systems Command (MCSC) is the Commandant of the Marine Corps’s principal agent for acquisition and sustainment of systems and equipment used by the operating forces to accomplish their warfighting mission. From socks to gunsights, the MCSC team outfits United States Marines with literally everything they drive, shoot and wear. This team of professional civilian Marines and active duty Marines equips the warfighter to win. They listen, learn, research, develop, test, procure and sustain – whatever it takes to get Marines what they need, when they need it – efficiently and for the best value possible.

Using highly effective, streamlined and innovative business processes, the command works hard to be timely and consistent in providing quality systems and equipment to the operating forces, and then expertly manages systems and equipment during their entire lifecycle. The technological advantage MCSC provides helps Marines to shoot straighter, move faster, and communicate more effectively so they can continue our Marine Corps’ proud and valorous tradition of winning battles in every clime and place. The command cares deeply about each and every individual Marine and works on a daily basis with one thought in mind; that is, to provide our Marines with the systems and equipment necessary to ensure that they return home to their families safe and sound.

As a member of industry, you can help Marine Corps Systems Command support our country’s all voluntary military operating forces, including the many Marines standing tall for freedom away from home in numerous foreign countries around the world. This brochure gives you an overview on how to do business with the U.S. Marine Corps, specifically Marine Corps Systems Command.

# Doing Business with **MARCORSYSCOM...**

## **Vendor Information Website** [www.marcorsyscom.usmc.mil/vendor](http://www.marcorsyscom.usmc.mil/vendor)

This Marine Corps Systems Command website provides a single information and access point for vendors seeking to do business with the Marine Corps and the command. The site explains the MCSC acquisition process, demonstrates how MCSC does business, provides links to related Department of Defense and Federal agencies, and provides insight into how the Marine Corps is organized and equipped. The website also provides links to resources that help vendors better understand concepts and programs the Marine Corps is considering that may provide future business opportunities for the vendor community.

## **Office of Small Business Programs** <http://www.marcorsyscom.usmc.mil/syscomorg/default.aspx?PG=25>

This office assists small and disadvantaged companies who are interested in providing equipment, information systems, training systems, weapon systems and other requirements to the Marine Corps. Small businesses may submit capability briefs by sending an e-mail to [sadbus@mcsc.usmc.mil](mailto:sadbus@mcsc.usmc.mil). For more information, call the office at 703-432-3946.

## **Navy Electronic Business Opportunities (NECO)** <https://www.neco.navy.mil>

Business opportunities, synopsis, competitive solicitations and amendments for MCSC requirements are available on the Navy Electronic Commerce Online (NECO)

website. NECO strives to provide contractors direct on-line access to Navy and Marine Corps procurement requirements, publish current procurement summary information for selected sites, provide registered users e-mail notification of new solicitation postings, and provide general Navy and Marine Corps information on electronic commerce initiatives. Navy and USMC solicitations are accessible online for supplies, services and materials. A vendor may submit their bid/quote online, and it is then forwarded to the appropriate buying activity for submission. Awardees are notified via email. The NECO Help Desk (800-503-6326) provides excellent technical and customer support 8 a.m. to 5 p.m. daily, Monday through Friday ET.

## **Defense Procurement and Acquisition Policy (DPAP)** [www.acq.osd.mil/dpap](http://www.acq.osd.mil/dpap)

Defense Procurement and Acquisition Policy (DPAP) has broad responsibility for acquisition policies. Their focus is on procurement and acquisition as an integrated acquisition process.

## **Acquisition Center for Support Services (ACSS)** [www.marcorsyscom.usmc.mil/sites/acss](http://www.marcorsyscom.usmc.mil/sites/acss)

Marine Corps Systems Command's Acquisition Center for Support Services (ACSS) is vested with the responsibility for developing, implementing and executing a comprehensive Advisory and Assistance Services (A&AS) program for the command. This consolidated office functions in an independent manner to coordinate requirements, establish contractual relationships, provide analytical and procurement planning services, and ensure appropriate regulatory compliance.

## **Contracts** [www.marcorsyscom.usmc.mil/sites/ctq](http://www.marcorsyscom.usmc.mil/sites/ctq)

To contribute to the warfighting mission of the United States Marine Corps by providing quality, timely, cost-effective and value-added procurement solutions to our Marine Corps customers; all while being diligent and faithful stewards of the taxpayers dollars and trust.

## **AT&L Knowledge Sharing System (AKSS)** <http://akss.dau.mil>

The AT&L (Acquisition, Technology, and Logistics) Knowledge Sharing System (AKSS) is your window to DoD acquisition, technology, and logistics knowledge by providing the right information, in the right place, at the right time. AKSS supplies mandatory acquisition reference documents and a wealth of other relevant acquisition resources.

## **DoN Acquisition One Source** <http://acquisition.navy.mil>

The DoN (Department of the Navy) Acquisition One Source website is the single authoritative source for Navy and Marine Corp acquisition policy and guidance. Managed by the Assistant Secretary of the Navy (Research, Development and Acquisition) Acquisition Management team located in the Pentagon, this website offers many features directed to the acquisition workforce.
